All

I wanted to get this draft to you early given the issue's high profile and my upcoming travel (I will be reachable unless flying/driving, but who knows what technology odyssey awaits me). Cheryl is meeting with OCIR/OPEEE/OPA shortly to discuss the rollout plan, and I am sure you'll see that once it has everyone's input as well.

This draft is a bit long, but there is a lot of history and scientific background that is important to convey. There is a separate q/a document that is also being prepared.

We welcome your feedback –

Thanks
